Government Solutions

## COVID19 & Return-To-Office Products/Solutions

ActOne Government Solutions was developed as part of the 50-year history of the globally successful ActOne Group (W/MBE) —a portfolio of companies created to bridge the gap between the talent needs of employers and the desires of employees. As a portfolio company, ActOne Government Solutions continues our legacy of excellent service to the people by delivering a wide range of innovative services and products to government agencies (federal, state, county, municipal, and quasi-government). Our strictly government-focused offerings include: Talent Acquisition, Staffing, HR Consulting, Contract & Vendor Management Technologies and Consulting, Business Solutions and Commodities. We provide sales and distribution of top-quality office supplies, including paper, janitorial supplies (38 distribution centers) and durable/non-durable, med/surg products and supplies to both government and non-government clients. [This is a list of the most demanded products associated with the COVID19 pandemic and Return-To-Office strategies.](#) If you have a need for a product not listed, please email [mperkins@ain1.com](mailto:mperkins@ain1.com), and we will begin sourcing efforts to secure that product within your timeframe and budget.
